

## Brain Training Research Data

### Report due 20<sup>th</sup> June

#### **Participant Background Information**

Below is a summary of the participants involved in the study, including age, diagnosis, frequency of speech therapy, and current use of the My Mind Matters Therapy apps:

- **Participant G:**
  - Age: 8
  - Diagnosis: Autism Spectrum Disorder (ASD), Language Disorder
  - App Use: Uses the apps at school with SSO support; not used at home
  - Therapy: Weekly speech therapy
- **Participant R:**
  - Age: 9
  - Diagnosis: ASD, Language Disorder
  - App Use: Uses the apps at home
  - Therapy: Fortnightly speech therapy
- **Participant I:**
  - Age: 7
  - Diagnosis: ASD, Language Disorder
  - App Use: Uses the apps at home
  - Therapy: Fortnightly speech therapy
- **Participant H:**
  - Age: 9
  - Diagnosis: ASD, Language Disorder
  - App Use: Uses the apps at home
  - Therapy: Fortnightly speech therapy
- **Participant B:**
  - Age: 6
  - Diagnosis: ASD, Language Disorder
  - App Use: Uses the apps at both home and school
  - Therapy: Fortnightly speech therapy
- **Participant L:**
  - Age: 8
  - Diagnosis: ASD, Language Disorder
  - App Use: Uses the apps at home
  - Therapy: Fortnightly speech therapy
- **Participant A:**
  - Age: 6
  - Diagnosis: ASD, Language Disorder
  - App Use: Uses the apps at home
  - Therapy: Weekly speech therapy

**Participant G** (left): showing performance across five sessions in *Word Descriptions*.

**Participant G**

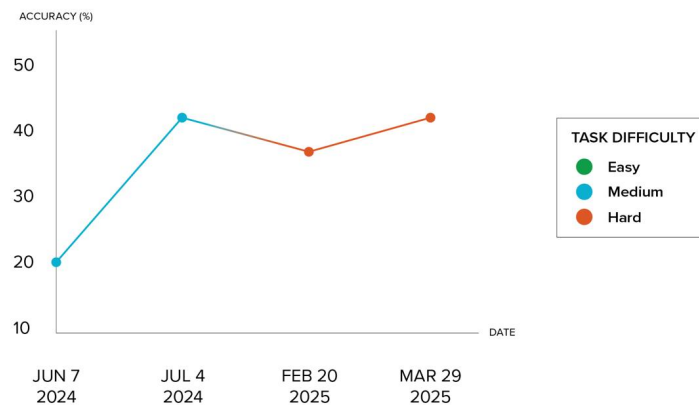

**Retrieve and Recall: Word Descriptions Progress - 2025**

**Participant G** has shown **overall growth**, beginning at 20%, rising to 42% by the latest assessment.

**Participant G**

**Name Recall: Progress**

**Participant R, separated by game and level:**

- **Hear and Recall: Colours** – significant improvement from 25% to 90% on the Medium level.
- **Hear and Recall: Words** – consistently high accuracy, peaking at 100% on the Medium level.
- **Hear and Recall: Numbers** – good overall progress with improvement at all levels.

**Participant R**  
**Hear and Recall: Numbers Progress - 2025**

**Participant R**  
**Hear and Recall: Words Progress - 2025**

### Participant R

#### Hear and Recall: Colours Progress - 2025

### Participant L:

- **Participant I:**

- *Hear and Recall: Pictures* – Shows a strong overall upward trend with a dip mid-way.
- *Retrieve and Recall: Naming Pictures* – Shows clear improvement from 70% to 80%.

- **Participant L:**

- *Hear and Recall: Pictures* – Progressed steadily from 85% to 90%.
- *Hear and Recall: Colours* – Consistent performance at 100%.
- *Retrieve and Recall: Naming Pictures* – Excellent growth after a dip, now at 95%.

### Participant L

#### Retrieve and Recall: Naming Pictures Progress - 2025

**Participant L**

**Hear and Recall: Colours Progress - 2025**

**Participant L**

**Hear and Recall: Pictures Progress - 2025**

## Participant I:

### Hear and Recall Progress by Level

- Tracks improvement over time by difficulty level (Easy, Medium).
- Participant I shows strong improvement, especially from 70% (Medium) to 95% (Medium) over time.

### Retrieve and Recall Progress by Level

- Shows progress from Easy (70%) to Medium (80%), indicating improved recall on harder tasks.

Participant I  
Hear and Recall: Pictures Progress - 2024/25

Participant I  
Retrieve and Recall: Pictures Progress - 2025

## Participant B – Progress by Game

### Games Tracked:

- *Hear and Recall – Pictures*: Fluctuations but overall upward trend, peaking at 100%.
- *Retrieve and Recall – Naming Pictures*: Consistent improvement from 50% up to 95%.

### Hear and Recall – Pictures

- Tracks progress over time across four difficulty levels: Basic, Easy, Medium, and Hard.
- Shows clear progression, especially improvement within **Basic** and **Medium** tasks.

### Retrieve and Recall – Naming Pictures

- Displays performance on **Hard**, **Easy**, and **Basic** levels separately.
- Reveals steady improvement in the **Hard** category, indicating strong progress at higher levels.

## Participant B

### Hear and Recall: Pictures Progress - 2025

## Participant B - Name Recall Progress

## Participant A – Progress by Game

- **Games Tracked:**
  - *Hear and Recall – Colours:* Shows gradual improvement from 44% to 50%. Same with Name Recall.
  - *Conversation Recall:* Strong performance, improving from 86% to 100%
- **Participant A** shows **steady improvement**, increasing accuracy from 37% to 42%.

Participant A  
Name Recall: Progress - 2025

Participant A  
Hear and Recall: Colours Progress - 2025

### Participant A

#### Conversation Recall: Progress - 2025

**Participant H:** showing a clear upward trend in accuracy. **Participant H** showing accuracy percentages across different **difficulty levels** in the *Word Descriptions* task

### Participant H

#### Retrieve and Recall: Word Descriptions Progress - 2025
